

MURALS WITH A VOICE OF THEIR OWN

01 LIMA

“As women, we fight for equality, taking ownership of our future”

This mural was created during a workshop with adolescent girls who imagined a version of themselves capable of flying toward their dreams. Being a woman is portrayed as a source of strength to challenge stereotypes, overcome barriers, and make decisions about their own future.

02 LAMBAYEQUE · MÓRROPE

“ALWAYS TOGETHER: we transform our future”

In Mórrope, the students represented their community's cultural roots in the ancestral Muchik culture, which remains alive in their territory. “Amek Kop,” in the Muchik language, means “always together”: a message of unity and empowerment to imagine a future without leaving their roots behind.

03 CAJAMARCA · SAN IGNACIO

“Dream big. Listen to your voice and achieve your goals”

In Perolitos, a small rural community where many families make bricks, the students expressed their pride in their community and their desire to develop without having to leave it behind.

04 CALLAO

“You are great as an adolescent. Dare to dream”

The students incorporated elements of Venezuelan culture, such as the arepa and the Venezuelan flag, to make their Venezuelan classmates visible and promote interculturality. A message about identity, coexistence, and pride in the stories that come together at school.

05 CAJAMARCA · CHETILLA

“Weaving a new story before building a family”

The mural invites adolescents to dream, choose, and make decisions about their own life plans before building a family, while remaining connected to the relationships and roots of their community.

06 LIMA · PUENTE PIEDRA

“Be the heroine of your own story”

The mural recognizes adolescence as a valuable stage of life, with the ability to make decisions, believe in themselves, and dare to imagine what they want for their future.
